What WordPress Form Builder Plugins Does Popup Maker Integrate with?

Popup Maker *natively* integrates with the following popular form builders:

- Popup Maker's Subscription Form shortcode
- Ninja Forms
- Gravity Forms
- Formidable Forms
- Contact Form 7
- WPForms
- Caldera Forms
- MailChimp for WordPress (MC4WP)
- WS Form
- Fluent Forms

These *native* or built-in integrations let you do the following:

- Automatically close form popups
- Launch thank you popups (or open other popups)
- Control how often visitors see your forms

You can do all this in the free version and without writing a single line of code!

Learn more in our latest announcement for Fluent and WS Form.

How Can I Close a Popup When I Submit a Form?

With form plugins integrated with Popup Maker, there's a special popup setting that lets you automatically close a popup when someone submits a form.

To set your popup to close automatically after someone submits a form, follow these steps:

1. Go to your popup's settings, then to **Close** > **Form Submission**
2. Check the **Close on Form Submission** checkbox

Want to also stop showing that popup to people who already filled out the form? See the FAQ How Can I Create a Cookie When Someone Submits a Form?

Are There Useful and Compatible Plugins with AJAX Login Modals?

Yes, there are! Please see our Useful and Compatible Plugins with AJAX Login Modals doc for a complete list.
